

Pura Clean UF

Whole Home Taste & Odor Filter

Pura Clean UF takes out bad taste and smell by reducing chlorine and chloramines in your water. Water that's fresher, tastes great, and protects your home at every tap. The system uses replaceable carbon, which means higher ongoing costs over time. It's a great choice if you're looking for an affordable way to enjoy fresher water now, with the flexibility to upgrade later.

Premium Carbon Filtration

Catalytic carbon reduces chlorine, chloramines, and other contaminants for cleaner, fresher water.

Simple & Affordable

No electricity or drain required. Perfect for homes without power or a drain hookup nearby.

Low Maintenance

No electronics, no programming – just install and enjoy.

Proven Performance

Independently tested and certified for chlorine reduction.

Fresh, clean taste

No more chlorine flavor or smell.

Kinder to skin and hair

Say goodbye to dryness and irritation.

The lifespan of the carbon media bed in these units will be shorter compared to a backwashing carbon filter.

The actual media bed life will vary depending on water consumption, chlorine/chloramines concentration and flow rate.

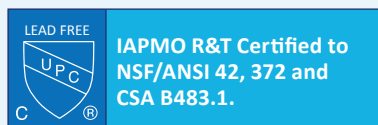

Exceeding the peak flow rate listed above will drastically reduce the life expectancy of the carbon media.
