

Pura Soft+Iron

Pura Soft+Iron – One System
for Hardness & Iron

Certified to Reduce Iron

The Pura Soft+ Iron uses a special resin that's designed to handle both hardness and iron at the same time. As water flows through the system, the resin attracts and removes the minerals that cause hard water (calcium and magnesium), while also trapping iron particles that can stain your fixtures, laundry, and dishes.

You get all the benefits of soft water – silky skin, shiny hair, brighter laundry, spot-free dishes, and protection against scale buildup – plus clear water with no more orange stains, metallic taste, or bad smells.

"Pura makes buying a water softener super easy and affordable. No high pressure sales tactics. I had a brand new water softener, within 48 hours, professionally installed by a very efficient and professional installer. Pura's customer focused model is exceptional. This was one of the best service experiences I've had."
